ready in our custom built warehouse**

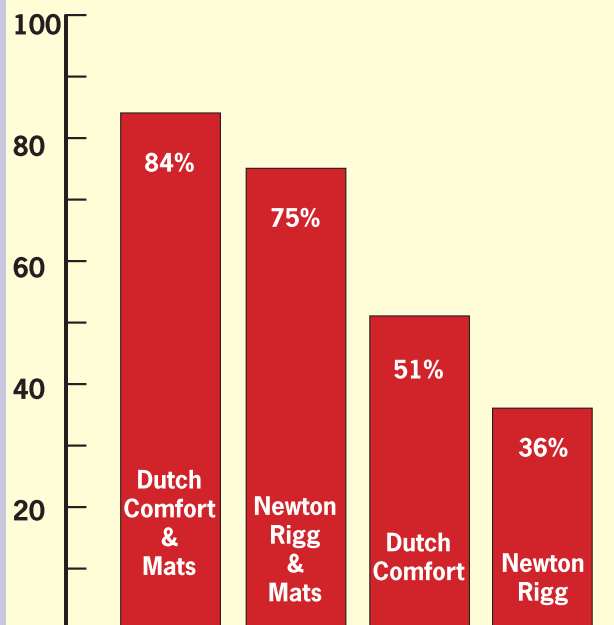

WHY DURAPAK CUBICLE MATS?

Durapak Cubicle Mats are made from Ethyl-Vinyl-Acetate (EVA) which is a non-porous polymer providing a soft, warm, comfortable cubicle mat for all livestock including cows, weanings, pigs and horses. Non-branded EVA mats are also available.

All animals spend more time lying in cubicles with Durapak Mats than in cubicles without mats. Independent researchers working with cows have discovered that cows spent more time in cubicles which contained mats. It was also found that cubicles with mats were re-occupied very quickly after a cow had left. This meant that a cubicle with mats was used over four times each night compared to twice for the cubicles without mats.

Occupancy Rates Lying and Standing

MAIN FEATURES

- EVA TYPE MATS
- TWO SIDED PATTERN
- NON ABSORBENT
- RANGE OF SIZES & THICKNESSES
- NON SLIP
- NO FILLERS

Milking Parlour Mats also available

MAIN BENEFITS

- HIGHER OCCUPANCY
- SOFT, WARM & COMFORTABLE
- INCREASED YIELDS & REDUCED VETERINARY COSTS

Using modern computerised equipment Durapak Mats are manufactured using EVA compounds which are blown to produce a mat which is soft, warm and has outstanding comfort characteristics.

When livestock are warm and comfortable they perform better. With the cushioned effect of the Durapak Mats, you will find a reduction in solar ulcers resulting in a drop of veterinary bills.

2 sided interlocking mats with fixing strip at the back of the cubicle

Durapak individual cubicle mats at John Murphy's farm, Dripsey, Co. Cork, - power hosed and ready for a new season

WHAT FARMERS SAY...

"The Durapak Link or Jumbo Mat has greatly increased cubicle occupancy on our farm and is far ahead of the rubber mats which we used in the past" - **John Gash, Minane Bridge, Cork.**

"The Durapak Mats are trouble free and we find them great to train young animals to use the cubicles. They are as good as the day we put them in 7 years ago" - **Paddy Owen Leonard, Baltimore, West Cork.**

"The Durapak Mats have increased our cubicle occupancy and the mats seem to be going to last a long time as they are wearing very well" - **Michael Darcy, Killick, Co. Wexford.**
