Baler Netwrap

& Elephant Baler Twine

DURAPAK BALER NETWRAP

For over twenty years Durapak Baler Netwrap has been well renowned for its quality and reliability. Durapak Baler Netwrap has been developed and perfected to assist contractors and farmers with high speed baling of silage, hay and straw.

MAIN FEATURES

- Made from high grade PE resin
- The length of roll, core width and quality of Baler Netwrap are always the same and it is exact on a consistent basis
- UV protection
- Universal – can be used on all machines
- Runs right to the edge of the bale
- In the case of silage, bales are easier to wrap and are also easier to transport and less prone to damage

MAIN BENEFITS

- Assists the high speed baling of silage, hay and straw, leading to high output
- Saves time, labour and fuel consumption – much faster than twine
- Allows for flexibility
- Suitable for all leading makes of round baler
- Gives a uniform, fully edged, protected bale
- Helps water to run off hay/straw bales
