

LONG-LIFE SOLUTIONS...

ANIMAL COMFORT

...FOR LONG-LIFE COWS

Welcome to Durapak

Since our establishment in 1991, Durapak has remained dedicated to advancing livestock comfort, welfare, and performance. Working in close collaboration with academics, industry leaders, and progressive farmers, our team has developed a market-leading portfolio of premium-quality welfare solutions tailored specifically to the needs of the livestock sector.

At the core of Durapak's mission is the principle of the "long-life cow", the foundation of ethical, sustainable, and profitable livestock farming. Our "long-life solutions" address the critical challenges of livestock comfort and injury prevention, two of the most significant factors affecting animal performance and longevity. Our products play a key role in supporting efficient feed conversion, improving daily liveweight gain, improving milk yields and enhancing overall health.

In 2023, Durapak joined the Creva Group, a market-leading Irish agri-solutions company that operates in over 40 countries providing products and advisory services that improve animal welfare, enhance performance, reduce environmental impact, and safeguard profitability. Following its acquisition, Durapak now benefits from exclusive access to Creva's complementary portfolio of welfare solutions, delivering even more "long-life solutions for long-life cows".

Thank you for your interest in Durapak. We hope that you find this brochure helpful in understanding our product offering. If you have any questions or would like to explore how our solutions can support your farm enterprise, we'd be delighted to speak with you. We would welcome the opportunity to work with you to build a more ethical, sustainable, and profitable future for your business.
